Project 5 t ART

5 t A R T is an outdoor installation that is permanently set in the Medvednica Nature Park (Zagreb), eastern slopes at the location along the Vukov dol stream and it is the beginning of the multi-year project of creating an environmental art gallery/outdoor gallery called VUKOV DOL ART by the Glineraj Association from Zagreb. The installation is 2.5 m high and 5 m long aviary type construction. It consists of a series of 3D signs made of welded metal mesh resistant to rain, snow and other weather elements. The construction is shaped as the text which says 5 t A R T” (Five tonS of art)

The idea of the project is to fill the signs with donated ceramics from ceramists from all over the world (ceramic works that are hidden in dusty boxes and dark corners of attics, basements, sheds, garages, cottages...).

The goal of the project is to connect ceramists from all over the world in one installation dedicated to Earth Day. It can be small pieces, even broken, because the emphasis is on togetherness.

All the signs are finished and will soon go to the galvanization....

.....with this big truck they are going to the company Cinkarna Helena where they will be immersed in the galvanization pools....

Hardworking volunteers begin digging the grounds to lay the concrete base on which the signs will be placed.

This large Ing-jet concrete mixer has poured the concrete and soon everything will be ready for the signs.

[The company Ing-Jet d.o.o., thanks for this big donation](#)

New meeting on

20.May 2023.

And adding more donated
ceramics to the 5 t ART
instalation

Come on May 20. 2023. in Planina Gornja to the
VUKOV DOL ART ceramics festival

Take part in the new filling signs. Rejoice with us by
discovering two new large donated sculptures by Arnalda and
Dani, located by the Vukov dol stream. Meet the Iranian
artist at the Vukov dol residence, Arezu Zargar, and listen to
an interesting lecture by Lauren Moreira about the
"More Clay, Less plastic" movement.
Pick up a piece of wild clay by the stream and shape your first
clay object.

You are all welcome
